The Mission is to help formerly incarcerated women become the person God created them to be. Hillsborough House Of Hope provides women who have been incarcerated a Christian home and guidance while they get their lives back in order. Under the supervision of a Program Director and a House Manager, residents live and learn in a program that is tailored to their personal needs.

Through our partners they are offered outpatient drug programs, vocational training, career counseling, recovery support, life coaching, and medical and dental care and assistance.

Our first home (Palmer House) consists of women who enter our six-month program.

Our second home (Pat Cook House) consists of women who have graduated from our program or,

a similar program but would like to continue living in our transitional step-down house.

They don't feel ready to be on their own.

We have created an atmosphere in this house to safely allow visitation of their children while the mom awaits reunification.

We recently fenced in the yard and will be adding a swing set along with sitting areas and outdoor toys for the children to enjoy while visiting.

We were blessed to have purchased a third house (Walker's Landing) over a year ago which allowed us to help house (4) additional women and continue our mission. Many of them are awaiting affordable housing.

Each woman has her own bedroom. We feel every woman deserves privacy and it helps them learn responsibility and increases their self-esteem.
